SUMMARY

Cybersecurity undergraduate specializing in **Vulnerability Assessment & Penetration Testing (VAPT)**, **SIEM**, and **Network Security**. Experienced in identifying and mitigating vulnerabilities, threat detection, and implementing security controls. Hands-on with **Burp Suite**, **Metasploit**, **Wireshark**, **Snort** and strong knowledge of **Zero Trust Architecture**, **Cryptography**, and **Incident Response**.

SKILLS

Security Tools:	Burp Suite, Metasploit, Wireshark, Snort, OpenVas, Nessus
SIEM & Monitoring:	Splunk, Log Analysis, IDS/IPS
Security Concepts:	VAPT, Threat Hunting, Incident Response, GRC, Zero Trust
Networking:	TCP/IP, DNS, DHCP, VPN, Firewalls, Manageengine, Sphos
Programming:	Python, Bash (Automation), C,
Platforms:	Kali Linux, Windows, Docker, OS-X, Git

EXPERIENCE

Cybersecurity Intern

Wilton Weavers Pvt. Ltd.

Feb 2026 – Present

- Performed **VAPT on internal & external infrastructure**, identifying **400+ vulnerabilities** across web and network layers.
- Delivered risk-based remediation strategies, reducing attack surface and improving security posture.
- Conducted **threat analysis, system hardening, and continuous monitoring** of network environments.
- Contributed to **SIEM design and implementation** for centralized logging and threat detection workflows.
- Supported **GRC initiatives** aligned with ISO 27001 and organizational security policies.

Cybersecurity & AI Intern

Horizon Flare India

Aug 2025 – Oct 2025

- Conducted vulnerability assessments and penetration testing on client web applications.
- Led intern team in secure project development and vulnerability management practices.

PROJECTS

Secure Print Privacy System

- Developed secure document platform with **AES-256 encryption**, **SHA-256 hashing**, and cloud storage.
- Implemented **token-based access**, **QR authentication**, and **auto-deletion** for secure print workflows.
- Designed access control with audit logging and privacy-focused DRM protections.

Zero Trust Network System

- Built Python-based ZTNA system evaluating trust of **100+ devices** in real time.
- Automated detection and isolation of compromised devices using behavioral analysis.

Public Wi-Fi Security System

- Engineered VPN-based traffic routing and deployed **Snort IDS** for threat monitoring.
- Configured OpenWRT routers and improved monitoring efficiency by **25%**.

EDUCATION

B.Tech in Computer Science (Cybersecurity)

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology

2022 – 2026

CGPA: 8.4

CERTIFICATIONS

- Certified Ethical Hacker(CEH v13) – 2025
- Junior Penetration Tester (eJPT v2) – 2025
- Web Application Penetration Tester (eWPT v2) – Pursuing
